SAMPLE LETTER · TEMPLATE

Mr. John Patterson

Director, Capital Projects
Northbridge Utilities Inc.
120 Front Street West, Toronto, ON M5J 1E3

Re: Transmission Maintenance Coordination & Technical Support Services

Dear Mr. Patterson,

Thank you for the opportunity to introduce **PrimeVolt Energy Systems**, an Ontario-based power-infrastructure firm specializing in high-voltage transmission line support, grid maintenance coordination, smart-grid integration, and modernization advisory services.

Backed by more than two decades of senior experience delivering 132 kV–500 kV transmission and grid-station projects, we help utilities, EPC contractors, and industrial clients improve project readiness, inspection follow-up, technical documentation, and maintenance planning — with the responsiveness and accountability of a specialist, founder-led team.

I would welcome the chance to discuss how PrimeVolt can support Northbridge Utilities' upcoming reinforcement and modernization programs. Please feel free to reach me directly at the contact details below.

Sincerely,

Rana Muhammad Zahid Hafeez

Founder & Principal Consultant — PrimeVolt Energy Systems Limited
